Professional Summary

Full Stack Developer and active student at Fundación Kinal, passionate about building digital experiences that are beautiful, functional, and accessible. Started programming at age 11 and has since built over 5 years of continuous learning, delivering 5+ completed projects and mastering 27+ technologies across frontend, backend, and DevOps tooling. Recognized for technical leadership: served as Scrum Master on university-level projects and has spoken publicly to help fellow students reach their goals in software development. Open to freelance projects and new professional opportunities.

Technical Skills

Frontend: Astro, React, TypeScript, Tailwind CSS, Next.js, HTML5, CSS3, JavaScript

Backend: Node.js, Spring Boot, Flask, Python, Java, REST APIs, GraphQL

Databases: PostgreSQL, MySQL, Prisma

Tools & DevOps: Git/GitHub, Docker, Vercel, Netlify, AWS, Figma, Shell Scripting

Other: NumPy, GameMaker Studio 2, Flet, Arch Linux

Featured Projects

Kinal Connections

2026

React / TailwindCSS / TypeScript / PostgreSQL / Spring Boot / GraphQL

A social network and recruitment platform for Fundación Kinal students, where companies can browse registered student profiles, post job openings, and share information, while users showcase their skills, projects, technical focus, and certifications. Selected for Expo Kinal 2026 out of 200+ submitted projects (only 56 selected). Built using SCRUM methodology, serving as the team's **Scrum Master**.

Promova

React / TailwindCSS / TypeScript / Node.js / Express / Prisma

A SaaS platform that automatically generates advertising content, designed to streamline the workflow of marketing teams through automation and intelligent content generation.

Spotinder

React / TailwindCSS / TypeScript / Node.js / Express / Deezer API

A music discovery platform with a “Tinder-style” swipe interaction, integrated with the Deezer API to recommend new songs based on user preferences.

Education

Fundación Kinal

Guatemala

High School Diploma in Computer Science (Perrito en Informática) — 5th year, evening program (currently enrolled)

- Presented projects at Expo Kinal 2025, Expo Kinal 2026, and Senacyt's National Science, Technology, and Innovation Week at Universidad Galileo.
- Leadership and speaking role: supports fellow students in reaching their goals in software development.
